

Limnionas beach south evia

38.242713654245, 24.246944189072

A wonderful beach with an Aegean feeling, in a large bay, which is divided in two by a rock that projects into the sea. To the left of the larger part is a sea cave with rocks for diving, while to the right there are taverns.

At the back of the beach, near the slope with the trees, you will also see campers. Coarse sand and fine pebbles, deep, blue waters and a few umbrellas – municipal. Surprisingly, although it is beaten by the north wind, Limnionas is almost always peaceful.
