

Megali Ammos Beach Marmari

38.033811049196, 24.30671453476

It is a diva beach next to Marmari, with wonderful white sand and fine pebbles, which changes shape every summer depending on where the wind blows and where the waves go. The landscape created by the wind and the waves is impressive: a large "tongue" of sand like a horseshoe enters the sea; and if the weather allows it, another tongue leaves it, thus creating a second small beach.

Megali Ammos starred in the promotional spot of the Ministry of Tourism for 2020, so it was discussed worldwide and strongly entered the summer agenda. It is very large, so you will have your space, while it is also organized. Finally, because the place is caught by the wind, it has become popular among wind surfers and kite surfers, so it also offers impressive spectacles with a "free" ticket.
