

River Beach

38.005158120933, 24.567403793335

Very long, pelagic beach, open to the winds, after Platanistos and its waterfalls, on the way to cavo d'oro. It's not just the crystal clear, blue sea. It is also the fairytale landscape – another one of those unique ones you find in southern Evia.

Amazing sand dunes on the wide sandy beach, which welcomes the stream of Platanistos (hence the name of the beach). The fresh water, in turn, creates a neighborhood of plane trees, which reach to the sea, so you will also see ducks basking three meters from its saltiness. Opposite, you can also see Andros.

Overview

Purpose: Excursion	Type: Beach	Country: Greece
City: Karystos
