

Super Paradise beach

Super Paradise beach

37.4147688, 25.368538998429

The renowned Super Paradise beach in Mykonos lies next to the renowned Paradise beach. During peak season, the beach can become very crowded due to its immense popularity. It is situated in a picturesque cove with soft gold sand and clear waters, and is counted among the most stunning beaches in Greece.

It is well-equipped with sunbeds and umbrellas; however, for those not wanting to be too close to other people, the right side of the beach remains untouched. Tourists can enjoy a beach club and restaurant, as well as activities such as parasailing, flyboard, and jet skiing.

The place is known for its fun atmosphere, with DJs playing music in the evening and turning the beach into an outdoor nightclub. Although it is a great option for families, it is suggested to go in the early morning to avoid the large crowds.

Furthermore, it is a favorite among the LGBTQ community, with the Jackie O' bar being a well-known gathering spot for people of different sexualities. Super Paradise is reachable by car, water taxi (boats from Platis Gialos), and bus.
